VILLAGE WATER SYSTEM, INC.  
ANNUAL FIRE HYDRANT TESTING SCHEDULE

OCTOBER 7, 2022

Our Fire District personnel will be testing our firefighting capability via a static pressure test of fire hydrants. This will require flushing the water mains.

During this flushing you may experience low water pressure and/or discolored water (red water). Although not harmful to drink, this discoloration can affect your laundry. This condition is temporary and running the **cold** tap water for a short period of time will clear up any discoloration. This procedure is necessary to sustain a good water distribution network, water quality, and fire protection.

The **approximate** start time will be 8:00 A.M., see dated and areas affected below:

**Tuesday, October 25**

Members residing in Mimosa Gardens I & II, South Merrywoods subdivision, Timbers East subdivision, Duck Island subdivision, Creekside subdivision, Princeton Rd and it's side streets, from Mahaffey Farm East on Highway 80, Highway 157, Highway 528, Highway 164, Highway 614, Faith Plantation, and Faith Estates.

**Tuesday, November 1**

Members residing on Wafer Rd and it's side streets, Forest Wafer subdivision, Crestwood subdivision, Merrywoods subdivision, Tall Timbers subdivision, from Mahaffey Farm West on Highway 80, and Forest Hills subdivision.

**Tuesday, November 8**

Members residing on Bellevue Rd and it's side streets, Winfield Rd, Sterling Ranch subdivision, Dogwood subdivision, Bodcau Station Rd and it's side streets, Espanita Forest Subdivision, and Oak Hill Estates.

**Tuesday, November 29 is a makeup day**

In case an area is not completed on the scheduled day.

We regret the inconvenience and thank you for your cooperation.
